

Vamos Mission

“BUILDING COMMUNITY THROUGH ACCESS TO ENVIRONMENTAL EDUCATION”

“DESAROLLAR COMUNIDAD POR MEDIO DEL ACCESO A LA EDUCACIÓN AMBIENTAL”

Vamos Outdoors Project (VOP) works to connect families to environmental education opportunities through fundraising, outreach, and partnerships with local organizations. We primarily work with the Latinx and English Language Learner communities.

Vamos Outdoors Project works to eliminate barriers to access that make it harder for Latinx and English Language Learner families to participate in outdoor, recreational, and environmental education activities. We provide supervision, transportation, food, and all necessary equipment for the activities provided by our partner organizations. All programming is free, through scholarships provided by our partner organizations or by Vamos Outdoors Project covering the fees. Our participants discover new passions, make friends, and connect with the greater Whatcom County community and environment.
