[Events](#)

Vamos Outdoors Project is a volunteer depended organization. Our volunteers provide supervision, transportation, and support for participants as they explore the activities offered.

We are always looking for more volunteers, especially Spanish speaking volunteer. We often work with youth recently settled in Whatcom County, who appreciate the comfort of speaking in their native language as they adapt to their lives here.

While much of our work welcomes youth to wild, natural environments, occasionally these spaces aren't as comfortable for people of color. Vamos Outdoors Project helps empower youth by giving them the skills and experience to feel confident in outdoor and recreational spaces.

Why We Need YOU

In 2020 we anticipate working with over 100 youth. We have more kids wanting to participate than we have capacity, and more outdoors/recreational/recreation organizations wanting to partner with us to create more programming. It takes a community to realize our mission, and we are looking to develop the Vamos community so more children can participate in our programs.
